

Run For Your Life Employee Health Program

35th Anniversary: Tuesday, August 29 and Saturday, September 2, 2017

Carson Park, Eau Claire

Special Olympics Wisconsin and the Leader-Telegram are committed to a healthier you. This health program is designed to get employees moving. It's perfect for long-time walkers and runners looking to take it to the next level of fitness and for beginners. As a Health Program participant your business will receive community exposure plus benefits associated with healthy bodies, minds and hearts. The "heart" part of this program includes that warm, fuzzy feeling of helping individuals with intellectual disabilities continue to participate in sports and health initiatives year-round in Special Olympics Wisconsin.

Become a Run For Your Life partner and see long-term fitness habits take shape in your workplace.

Psychology Today says on average, it takes 28 days to form a new habit. Go the distance to promote a healthy lifestyle within your workplace with a suggested 6 week training program. At the end of 6 weeks employees will celebrate their successes and milestones at the Leader-Telegram Buckshot Run.

Psychology Today also says it's more likely an individual will stick with a regular exercise routine if they train with a partner and enjoy their first official race experience. The Leader-Telegram Buckshot Run is family friendly, competitive yet attainable for newbies, and the perfect experience to Get Moving!
