GOAL

The goal of the Special Olympics Wisconsin social media policy is to provide employees and affiliates with guidelines for personal and professional conduct when posting and sharing on social media. Although all social media sites have their own rules that govern what is appropriate, this policy and the recommendations listed below are in addition to those rules.

USE

Special Olympics Wisconsin uses social media as a way to connect with current and potential athletes, coaches, donors, volunteers, parents, fans and media. We use social media as a tool to learn more about what is important to these groups as well as share important information about Special Olympics Wisconsin.

Multiple pages on any social media channel are only considered when an event or initiative meets two criteria: 1) Statewide reach and 2) Revenue greater than $1M. Any existing/additional social media pages/profiles are prohibited as it causes confusion and dilutes the event brand and SOWI brand. The following actions must be taken:

- Pages/profiles shall be deactivated within 30 calendar days
- Followers should be directed to the official event page
• Notification sent to your department head and the Marketing Department when action is complete

To request the development of a new social media page/profile, the event or initiative must meet two criteria: 1) Statewide reach and 2) Revenue greater than $1M. If criteria are met, then a Social Media Request must be submitted to your department head and the Marketing Department for joint approval.

If a social media account page/profile is approved, a member of the Marketing Department must be an administrator and/or given login credentials.
